### EADERSHIP...

means superiority. Continued leadership implies progress.

Tacitly acknowledged leadership over many competitors shows undeniable merit.

### PIONEER ...

may win reputation by novelty.

For a day—for a year, it may be—a new thing may command attention. Enduring success must be founded upon intrinsic worth. Reputation does not long survive the qualities upon which it was founded.

### HE REMINGTON ...

Standard Typewriter was the pioneer of practical writing machines.

Alone, it demonstrated that writing by machinery was possible, was economical of time and labor. It opened a new field of industry for thousands. At first ridiculed, then tolerated, it is now demanded. It is an indispensable factor in the work of the world to-day.

HE SUCCESS...

of the Remington is phenomenal. Its renown is world-wide.

The demand increases from year to year with unexampled rapidity. The reputation originally won by its novelty and ingenuity is now admitted to rest upon a solid basis of practical merit.

HOROUGH integrity of construction and untiring enterprise in improvement have

made its supremacy unquestionable. It is the standard of comparison.

# HE New Model No. 6 REMINGTON TYPEWRITER

is everywhere looked upon as the acme of progress. It embodies the experience of twenty years of practical usage—not untried principles nor hastily contrived experiments. It contains numerous skillfully devised and thoroughly tested improvements.

### TRENGTH ....

means durability—the Remington is strong.
Time flies apace,

but the Remington is quick. Writing is work, but on the Remington it is easy work. Its capacity is great, but its construction is simple. Others collapse at critical moments, but the Remington never wearies.

### MANUFACTURED

BY
