KNEE-SHIFT ATTACHMENTS.

Pat. Dec. 1st, 1885.

SOUTHWORTH.

PRITCHARD.

An Attachment for operating the carriage-shift, when the capitals are required, by a pressure of the knee. It leaves both hands of the operator free to manipulate the keys when the upper case characters are to be written. Price, Pritchard, \$2.00.

Southworth Knee-Shift fastens directly on the machine and can be removed or attached in a moment. Price, Japanned, \$2.50. Nickel Plated, \$3.50.

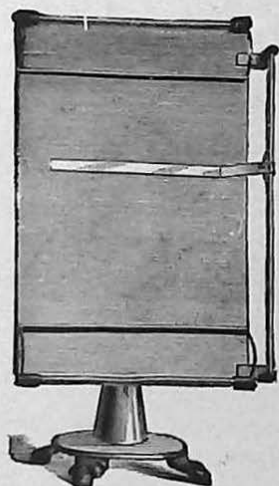

PERFORATOR AND EYELETER.

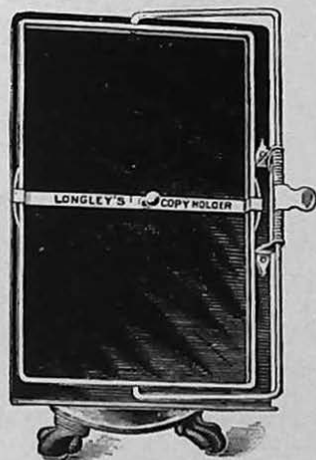

THIS Machine combines three implements that are well nigh indispensable in every office, viz: A PERFORATOR, AN EYELETER, AND AN ATTACHMENT FOR BINDING MSS. Being combined in one instrument, less room is required for their use, and there is no possibility of any one of them being mislaid. The perforator punches one or three holes. The machine contains eyelets and binding tape, and is also provided with a tape needle and a small drawer which receives the waste from the Perforator, thus preventing the untidiness which usually results from punching paper. The instrument, being fastened upon a base provided with rubber feet, will not mar a desk or table.

Price complete, with box of Eyelets and spool of Tape, \$6.00.

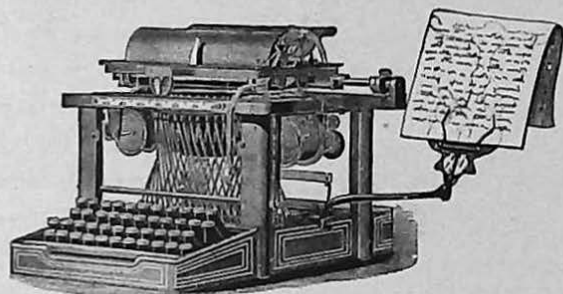

COPY-HOLDERS.

REMINGTON.

LONGLEY

REID.

COPY-HOLDERS, For holding Manuscript or Stenographic Notes while Copying on the Machine. Price, for either Remington, Longley or Reid, - - - - \$2.00

In ordering, please state your preference.
