

You can fold this typewriter

Packitin your grip; weighs only six pounds, and no matter where you go, you can always write, neat legible letters and reports.

Impression is everything, so when you can't call personally, let your letter be your proxy. Create the most favorable impression by writing your letters on a

CORONA Folding Typewriter

Wherever business men travel, wherever newspaper correspondents are on the job—wherever army and navy men go—wherever there is much writing to do at home—wherever the modern efficiency idea has found a footing, there you will find the Corona, the machine for personal use. You should own a Corona—costs but half the price of a big machine.

"Proof of the Pudding" tells what the Corona is actually doing for hundreds of firms and personal owners—you'll recognize most of the names.

Also ask for booklet No. 1.

> PROOF OF THE PUDDING

A Secretary at Your Elbow

Keep a Corona in your desk drawer. When you have correspondence, copy, plans, or other writing to do, take it out, unfold the carriage, and you have before you a standard typewriter — a private secretary always at your service. The

CORONA

Folding Typewriter

occupies little space—only a corner of your desk or grip—it weighs but 6 pounds.

But it does everything that any correspondence machine will do. It has the same modern improvements and the quality of its work is unexcelled.

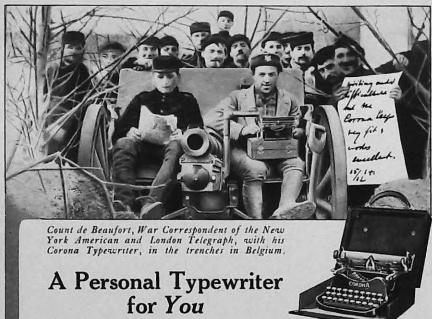

Every advertising man, in fact every man who writes, should "Own-a Corona." This paper has has been edited the Corona-way for years. Its cost? — but \$50.

Send for Booklet D-it is brief but tells the story.

Corona Typewriter Co., Inc. Groton, N. Y.

Agencies throughout the world

IISTORY is in the making in the trenches in Europe. And the Corona Typewriter is on the ground recording it. Many war correspondents have found their Coronas as indispen-

sable as their cameras.

And thousands of men and women in every peaceful walk of life use the.

Below-"Phanto picture show Corona folded carrying case.

ORON Portable Typewriter

The Corona is a practical, portable typewriter for your personal use. Whatever writing you have to do — wherever you have to do it — you will find the Corona-way the rapid, easy, clear, business-like way. It will save many an hour of tedious "long-hand" writing — many a dollar of stenographic expense; and it will increase your personal efficiency.

The Corona weighs only 6 lbs.
Unlike all other typewriters, which have rigid frames, the Corona has a folding carriage. Thus it can be closed up like a book, and easily packed in grip or suitcase, taking no more space than a

large camera. In spite of its lightness and compactness it is a real typewriter, with every modern improvement, from visible writing to two-color ribbon. It stands the wear and tear test, too. Its cost?—only \$50.

The Corona is easy to operate. Even if you've never used a typewriter, you can quickly acquire speed on the Corona.

Many prominent concerns have equipped their road men with Coronas. Uncle Sam uses it in many departments. It proved its value to Ex-President Roosevelt on his Brazilian expedition. It is used in many business offices by executives and employees to save the time consumed in dictating.

We couldn't begin to name all the lines of work in which the Corona is making itself indispensable. But if we could, yours would be included.

Before you turn this page, decide that you will let us prove to you why you should "Owna Corona." Have the Corona dealer nearest you demonstrate this remarkable little typewriter. It will argue its own case. Or, if you do not know the Corona agent in your locality, fill out and mail the coupon below. It will bring interesting literature and information as to how you can secure a demonstration without any obligation.

Executives, Sales Managers—Telegraph at our expense for demonstration.

This chart is published for the purpose of aiding salesmen to answer correctly questions about the specifications of Corona and other leading typewriters.

The information on the above chart is in accordance with the best information at hand and is believed to be correct as of the date published.

CORONA TYPE FACES

PICA is the most popular style of type used on writing machines It possesses the maxium of legibility at the ordinary reading distance, makes excellent carbon copies and may almost be considered the standard for business correspondence.

1234567890

There are 10 Pica letters to an inch.

ELITE ranks next to Pica in popularity.

It is generally preferred for writing personal letters, cards, military forms, etc.

Elite Coronas are built to space either 10 letters to the inch, as above, when specially ordered, or 12 as follows: The former is more pleasing to the eye; but the latter effects greater economy of space.

* 1 2 3 4 5 6 7 8 9 0 *

Pica and Elite (above) are the only styles of type furnished on Corona Four Any of the five styles shown on this sheet will be furnished on Corona Three or XC

ITALIC, though a very attractive type,
has never been as popular as Pica or
Elite -- probably because it is not quite
as legible. However, the very fact that
one seldom sees a business letter written
in Italic makes it the more distinctive
for personal correspondence.

-1234567890-

MEDIUM ROMAN, because of its size, is popular for typing manuscripts, lecture notes, etc. Like the BILLING face, below, it is especially good for manifolding.

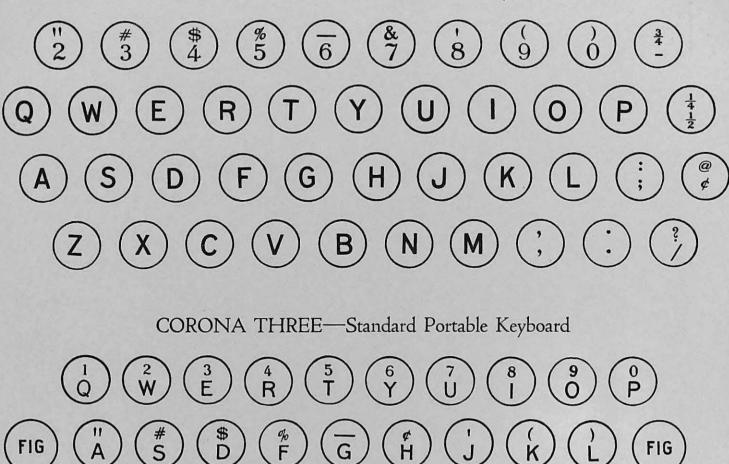

BILLING IS OUR LATEST TYPE. ITS NAME DESCRIBES ITS USE. TELEGRAPH OPERATORS

\$1234567890\$

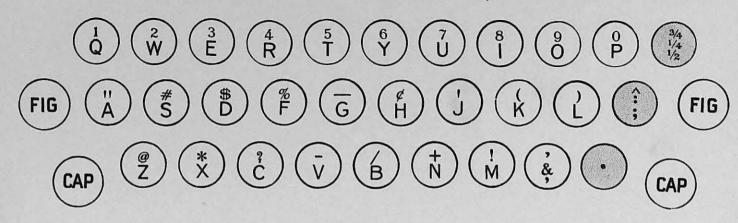

PREFER THIS TYPE AND IT IS ALSO USED

EXTENSIVELY FOR LABEL WRITING.

CORONA FOUR-Standard Office Keyboard

CORONA XC-90 Character Keyboard

The arrangement of the letters on the above keyboards is in accordance with the standard set for the United States. Foreign language and technical keyboards for engineers, chemists and physicians are also obtainable on all of these models at no extra charge. The XC Corona, because of its greater number of keys, offers unusual latitude in the selection of special keyboards. One very distinct advantage which Corona offers for foreign language writing is found in its "dead" keys. Any or all of the three shaded keys on the XC model and any key on Corona Four may be so adjusted as to print accents without moving the carriage.

CORONA BROADCASTER

To All Dealers And Salesmen:

Subject: "The Logical Typewriter" Book.

"HOW TO USE THIS BOOK"

Two or three years ago we published a book similar to this one based upon Corona Three. Corona salesmen throughout the country pronounced it the best selling help they had ever received. The demand for the book far exceeded the supply.

Now we are ready to provide every man with an even better one on Corona Four -- we have named it "The Logical Type-writer Book." It should be a part of every salesman's equipment.

Purpose of the Book

(1) To create confidence in the mind of your prospect in the Corona Typewriter Company.

(2) To present the basic selling arguments in logical

order.

(3) To strengthen your sales talk by presenting your arguments in black and white, over the name of the Company.

(4) To enable a new salesman to present these arguments as completely and logically as the older and

and more experience men.

(5) To sell typewriters by selling confidence in the firm which makes them.

How to Use the Book When Talking to a Prospect

You will note the absence of solid type in this book and the generous use of pictures. There is very little to read except the head lines; therefore --

TALK THE BOOK TO THE PROSPECT while he looks at the pictures, but DO NOT ask him to READ it. Read it TO him.

Make your preliminary talk first, then, if he hesitates -- say, "Here are a few things which may interest you." At this point bring out your book -- you can talk it through in less than three minutes. When you reach the last page your sales talk has been completed. Now you assume the prospect is "sold" -- so this last page helps you to get the order signed by asking "What kind of type do you prefer?" When a choice is mentioned, write it on your order form and start making up the order.

This Book is Not Complete

- (1) Before using the book prepare a neat letter and lay it inside the front cover. A sample of the work is the machine's best recommendation. Show it FIRST. Prepare a new letter occasionally so your sample will always be clean.
- (2) Your book also lacks the list of local users and the local testimonial letter. Make these up and paste them in your book NOW.

Extra Copies of "The Logical Typewriter"

Although this book is part of your permanent equipment, occasions may arise where it would be helpful to leave it with your prospect. This applies ONLY to large deals pending with schools or large offices.

The book of course should not be used for circularizing. Each dealer should keep on hand sufficient copies to take care of all salemen and a copy should at all times be kept on the demonstrating desks or tables on the store floor.

Supplementary Material

Inside the back cover you will find a chart showing the "Physical and Mechanical Comparisons of the Leading Makes of Typewriters."

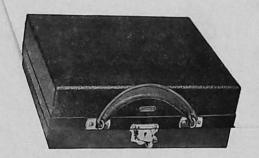

This is NOT a part of your demonstration. The imformation is given only to enable you to answer correctly any questions which the prospect may ask regarding other machines.

We also enclose a Corona Type Sheet which should always be a part of your equipment.

Very truly yours,

CORONA TYPEWRITER COMPANY, Inc.
